

IRIS 3

■ **Efficient, robust and safe**

Efficacy and responsibility IRIS

Operator's safety is part of the design, as the air slot can be adjusted quickly and easily with one hand, without any risk of getting your gloves cut.

HARDI IRIS
Sistema para pulverización en viña

The B51 boom is designed with a trapeze and coil spring suspension in order to provide the efficiency needed on larger farms and by contractors. The central section maintains itself in a floating position even at high speed.

The IRIS application system allows for individual air adjustment as each outlet permits steep angling or even closing of the air supply, if necessary.

The spraying system is fitted in a breakaway clutch that opens up if the IRIS drop leg accidentally hits an obstacle.

The boom system in which the IRIS drop leg is situated, can be adjusted and therefore all row distances can be covered.

HARDI - Your Sprayer Specialist

HARDI INTERNATIONAL A/S

is an international group, whose basic idea is to satisfy the user's requirements for quality products ensuring efficient, punctual and precise application of crop protection products.

Our worldwide distribution and sales network comprise more than 100 countries where we are represented by importers, agents and sales subsidiaries. Our sales subsidiaries are situated in Sweden, Norway, Denmark, the UK, France, Spain, North America, Germany and Australia.

More than 50 years of spraying

HARDI was founded in 1957. In 2007 the company joined EXEL Industries, having a group turnover of approx €450 million and employing 2600 people. EXEL Industries is world leader in spraying technology.

EXEL Industries is represented in three major spraying areas: Industry (spray guns and paint application equipment), General Public (hand-operated sprayers for gardening) and Agriculture (field, orchard and vineyard sprayers).
